ADDITIONAL COMMENTS

Prior to doing the field aspect of the inspection, I reviewed paperwork in the scale house. I reviewed all the random inspections for August and September so far, daily records of leachate sump and flow meter readings, daily tonnage (total, and broken down by type of waste, specifically checking sludge volumes), and special waste tickets for August and September. All records were easily accessible and organized.

There were no leachate seeps observed during today's inspection.

The intermediate cover slope where I observed flagging in my two previous inspections has been covered with clean dirt. Flagging has been taken care of.

There was sufficient equipment at the working face, and the waste appeared contained and manageable.

The pond clean-out is still in progress. In July we discussed an end-of-August completion date for the pond clean-out. I observed that some of the sediment around the pipe has been cleaned out (see August and September photologs); however, the clean-out is still incomplete. If the sediment downstream of the pipe is excavated and removed to a location where it will not wash back into the pond, this shall be considered sufficient for now, as that area is the area of maximum sediment accumulation. It may be helpful to place large rocks (12" diameter, roughly) at the mouth of the pipe to slow water as it is entering the pond. Sediment accumulating behind the rocks would be easier to clean out than a large sediment wedge such as the one photographed in August. I will follow up on the pond clean-out in October's inspection.

It was raining the day of the inspection, but there was no mud in the road or being tracked out of the facility. I observed the sweeper cleaning the road outside the facility (Hwy 72) as I was leaving the facility. The wheel wash was also open and there were signs directing trucks to go through the wheel wash before leaving.

The vegetation on the slopes at the back of the landfill is patchy. Establishing more vegetation on the slopes will reduce erosion and sediment runoff into the pond.

No violations observed today.

Matlock Bend Class I Landfill – SNL 53-0203 Initial monthly inspection – 09/20/2021 Photolog

Leachate head level at the sump was 23.3" at the time of the inspection.

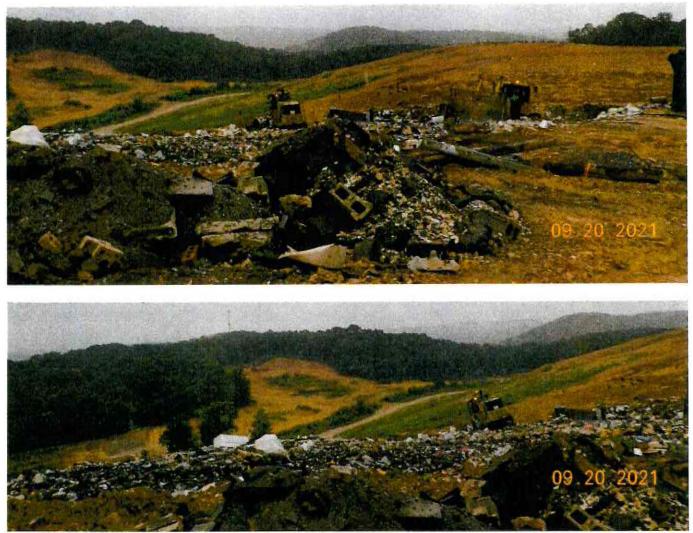

Working face viewed from the sump location. Working face was higher on slope than at beginning of August.

View of working face from the pond.

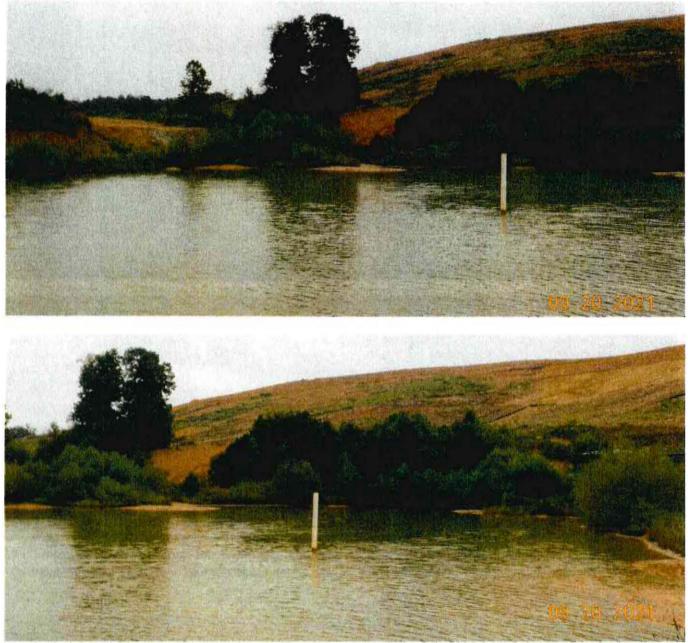

Trucks dumping at the working face. There is currently space for about three trucks to dump.

View of working face from right (upper photo) to left (lower photo), panning away from area where trucks are dumping. Due to the shape and location of the working face on the slope, it was hard to photograph from the top of the slope. The working face was cut into the slope below, which made it well-contained and a manageable size.

Area to the left of the working face has been covered with clean dirt and groomed since August's inspection. This area had a lot of flagging previously. This is a noticeable improvement.

The two photos above show the current condition of the pond. The pond cleanout has still not been completed. A relatively small amount of sediment has been removed and piled next to the pond (see photo below).

Material excavated from pond since August's inspection.

Photo of this area from August's inspection, for comparison. Sediment beyond blue line/true perimeter of pond needs to be completely excavated and removed to a location where it will not be washed back into the pond.

October 1, 2021

Loudon County Solid Waste Disposal Commission 100 River Road P.O. Box 351 Loudon, TN 37774

Dear Kelly,

Pursuant to Section 10.6 and 10.7 of the Sanitary Landfill Operation Agreement between Loudon and Santek as of July 1, 2007, Santek agreed to pay the Commission a host fee and security fee as defined in the Agreement. The following recap reflects the calculation for the period of August 1, 2021 to August 31, 2021:

Host Fees (Greater of below) –	
Total Tip Fees Billed	\$311,802.76
Host Fee Percentage	3.96%
	\$ 12,347.39
Minimum Fee	<u>\$ 10,572.50</u>
Security Fees (Greater of below) -	
Total Tonnage Received	12,041.95
Rate per ton	\$ 1.00
Total	\$ 12,041.95
Total Tip Fees Billed	\$311,802.76
Security Fee Percentage	5,00%
	\$ 15,590.14

Our checks in payment of the above fees have been remitted to the above address for the Commission. Should you have any questions or need additional information, please let me know.

Sincerely,

aron WithL

Sharon Webb Business Unit Finance Manager
