Exhibit A

RESOLUTION NO. 62-90

WHEREAS, the Tennessee Valley Authority (TVA) provides a wide range of Economic development and technical assistance services that are beneficial to the public and private sectors that, directly or indirectly, help to improve the quality of life of all the people in the United States, especially the residents of the 201-county TVA region in Alabama, Georgia, Kentucky, Mississippi, North Carolina, Tennessee, and Virginia, and

WHEREAS, the Presidential Budget in 1991 proposes to reduce TVA's 1991 appropriated budget by 25 percent from \$121 million to \$91 million, a \$30 million reduction, and

WHEREAS, a budget reduction in this amount will terminate or be extremely detrimental to TVA's programs in agriculture at Muscle Shoals, Alabama which has been highly successful in food production which has proven both national and international accomplishment, fertilizer, farm demonstration, economic development (jobs), hazardous and solid waste management, soil erosion control, forestry, environmental education, downtown revitalization in small cities and other specialized technical assistance service, and recreation such as putting restrictions on TVA programs like the Land Between The Lakes Recreation Area and other projects which means so much to the people of the valley.

NOW THEREFORE, BE IT RESOLVED, by the undersigned, as so indentified, that a 25 percent reduction in TVA's appropriated budget is considered to be unrealistic, and highly disproportionate and that any cuts in such budget should be kept in line with or similar to other federal departments a "fair share" for TVA, and

FURTHERMORE, BE IT RESOLVED, that copies of this Resolution be sent to President George Bush, both of the U.S. Senators elected to serve our state, the Governor of our state, the U.S. Congressman elected to serve this District, and the local news media serving this community.
