LOUDON COUNTY COMMISSION

RESOLUTION NO. 02377

RESOLUTION APPROVING AGREEMENT FOR LOUDON COUNTY  
EMERGENCY COMMUNICATIONS DISTRICT TO MANAGE THE  
LOUDON COUNTY DEPARTMENT OF COMMUNICATIONS

WHEREAS, LCLEA was formed by an interlocal governmental agreement in the early 1970's, with the participating governments being Loudon County, the City of Loudon, and the City of Lenoir City; and

WHEREAS, the purpose of the new intergovernmental agency was to manage certain activities and programs located at the new Loudon County Justice Center, including allocation of space, etc., and specifically to be responsible for the operation of the new combined radio communications dispatching center; and

WHEREAS, the LCLEA Board was composed of two appointees from Loudon County, one each from the cities, and a fifth person elected by the other four, and these individuals in most cases have not been associated with actual users of the communications system, but have been "political" appointees; and

WHEREAS, the financing of the communications department and the other activities at the Justice Center are a part of the county budget system, with contributions being made by the two cities; and

WHEREAS, over a period of time the expiration period for the original interlocal agreement expired, primarily over a disagreement as to the amount of funding that should continue to be made by the cities, and the county since then has continued to assume an increasingly greater percentage proportion of the budget responsibilities; and

WHEREAS, even though the contract has expired, by continuing informal agreement, the joint LCLEA Board has continued to meet and be responsible for many of the County Justice Center housekeeping matters, including the hiring and supervision of the communications department; and

WHEREAS, in later years the new LCECD was formed, with revenue for the carrying out of the 911 function coming from telephone users as collected by the telephone companies, and with the operation of the emergency communications equipment and the use of emergency communications procedures having been done by LCLEA by informal agreement as between LCECD and LCLEA; and

WHEREAS, the LCECD Board, has been appointed by the Loudon County Executive and the Loudon County Commission, and in accordance with Tennessee law, appointments have represented primarily professional users of the communications system, and also representing the two cities and the county; and

WHEREAS, the equipment and the training requirements have been steadily upgraded since the implementation of E-911 emergency services; and

WHEREAS, the LCLEA Board, now has decided by majority vote that in order to continue to upgrade the efficiency and professionalism in radio dispatching communications for the county, it would be preferable to contract with LCECD to manage, supervise and operate the communications department; and

WHEREAS, because there may be a question as to the status of the LCLEA Board to legally make this decision, LCLEA asks that the County Commission approve the management contract

NOW, THEREFORE, BE IT RESOLVED by the Loudon County Commission, in regular session assembled this 3rd day of February, 1997, that the county approves LCLEA entering into an agreement providing for the supervision and management of the Loudon County Communications Department by the Loudon County Emergency Communications District, to include all emergency communications functions as well as regular communications functions, with the management contract to be approved by the LCLEA Board and the County Executive.

WHEREAS, the parties desire to eliminate a management overlap and to operate the communications system of said Justice Center in an economical and efficient manner.

NOW, THEREFORE, in consideration of the mutual covenants contained herein, and other good and valuable consideration, the receipt and sufficiency of which are mutually acknowledged, the parties agree as follows:

1.
